ico.

Winter '26 Product Catalog

An ico introduction

Meet the new ico. Our refreshed identity brings our collections together under one name and gives a fuller picture of the company behind them. Its look and voice reflect the care and attention to detail you'll find in our products and in the way we work with you.

A bathroom comes together in the details. The warmth of a towel, the clarity of a mirror, the feel of a carefully chosen finish. At ico, we create these elements with purpose, bringing comfort and a quiet sense of completeness to the spaces people use every day.

We bring the same care to the people behind each project. We listen first, help you find the right fit, and provide clear information and reliable support from the first quote through installation. Whether you're specifying a space, curating a showroom, or creating a bathroom of your own, you can expect thoughtful products and a team that takes responsibility for the details.

That's the ico standard.

The ico story

For over 20 years, ico has blended Canadian craftsmanship with timeless European inspiration to elevate the daily rituals of home life.

The signature standard for North America's most discerning homes.

Our mission and future

Our purpose is simple yet profound: to deliver North America's signature finish through seamless logistics, intentional design, and human-centered support.

By continuously anticipating the needs of the design community and crafting products that perform as flawlessly as they look, we strive to set a new standard for hospitality and comfort in homes across North America.

Grounded in family, guided by craft.

The foundation

ico was built on an unexpected discovery. In 2002, during a family vacation to Canada, our founder (originating from the UK) noticed a surprising design gap: despite the long, freezing Northern winters, the incredible comfort of a warm, dry towel after a bath or shower hadn't yet taken off the way it had in European homes. There was a clear opportunity to bring that daily sense of spa-like luxury to North America.

A commitment to quality from the beginning.

Creating ico

Driven to turn this vision into a reality, the family established a dedicated assembly and manufacturing facility in Regina, Saskatchewan. Formally launching the ico brand in 2004, the family business committed itself to uncompromising quality from day one, earning the coveted CSA stamp of approval for our very first heating elements to give our customers peace of mind.

You can count on us

Every product leaves our facility meeting the standards we set in 2004, the ones that earned our first CSA certification and the trust of customers across North America. That commitment has not changed, and it will not.

Finishes

Elegant finishes that pair with any bathroom.

We have eliminated "finish anxiety" for homeowners and designers alike. Whether it's the brushed gold, matte black or satin brass you select for your towel warmer, it is an identical color and luster match to our accessory suites and mirrors. Our entire palette is also carefully calibrated to pair seamlessly with North America's leading luxury plumbing brands.

Gloss White

Matte White

Chrome

Brushed Nickel

Matte Black

Polished Nickel

Brushed Gold

Brushed Bronze

Gunmetal

Satin Brass

Unlacquered Brass

Each ico finish has a story. Explore the inspiration behind our palette and the character each finish brings to a space.

Gloss White

Pure Reflection

Inspired by the sculptural interiors of modernist design, where white surfaces are used to amplify light and create a sense of space. From polished stone and glazed ceramics to expansive windows and reflective surfaces, every element is considered for the way it catches, redirects, and transforms light.

Matte White

Mediterranean Coastline

Inspired by the sun-washed architecture of the Mediterranean, where white is never simply white. It is lime-plastered walls glowing in the afternoon sun, whitewashed villages cascading toward the sea, and handcrafted ceramics shaped by generations of artisans.

Our Matte White finish captures that same quiet beauty. Soft, understated, and timeless, it brings the feeling of a sun-drenched coastal retreat into the modern bathroom.

Chrome

Light & Precision

Chrome recalls the clean precision of modern European architecture, where glass, steel, and light work together effortlessly. It reflects its surroundings, allowing the design of the room to take center stage while quietly enhancing every surface.

Matte Black

Create Definition

From the iron-framed windows of historic Parisian buildings to the bold silhouettes of contemporary European homes, black provides structure—it frames, grounds, and brings focus to the details around it—the art of contrast. Our Matte Black finish brings this sense of definition to the bathroom. Rich and understated, it adds visual weight without overpowering the space, allowing form, texture, and material to take center stage.

Polished Nickel

The Grand Hotel

Drawing inspiration from the refined interiors of Europe's grand hotels and historic residences, Polished Nickel reflects an era when even the smallest details were designed with care. Marble, crystal and polished silver brought a sense of light and elegance to rooms layered with texture and tradition.

Its softly reflective surface captures that same enduring refinement. Bright yet warm, Polished Nickel brings a sense of quiet luxury to a space — timeless, elegant and never overly ornate.

Brushed Gold

The Golden Hour

Brushed Gold draws from quiet richness. Warm without being overly polished, its subtle finish brings depth and luminosity to a space—reminiscent of the materials, light and craftsmanship found throughout historic European architecture.

Brushed Bronze

The Artisan's Workshop

Think about the old workshops of Northern Italy, where bronze has been shaped by hand for centuries. The finish carries the warmth of aged metal softened by time and craftsmanship.

It feels collected rather than manufactured.

Gunmetal

Urban Heritage

Inspired by the enduring metalwork found throughout historic cities—cast-iron balconies, wrought-iron gates, steel-framed windows, and the structural details that have become part of the urban landscape.

Gunmetal captures that same sense of permanence. Deep and dimensional, with the character of forged metal, it brings an architectural weight to the bathroom while remaining refined and understated.

Brushed Nickel

Scandinavian Simplicity

It's not so much about a place, but a way of living. A design philosophy emerged that values craftsmanship over ornament, and materials chosen not to impress, but to endure.

Brushed Nickel reflects that quiet approach to design. Its soft, brushed surface has a subtle warmth and texture that pairs naturally with wood, stone and linen. Understated yet refined, it brings a sense of calm to the bathroom—where beauty comes from simplicity, balance and the honest character of natural materials.

Satin Brass

The Beauty of Brass Work

For centuries, brass has been part of the language of European interiors—found in door hardware, lighting, furniture details, and finely crafted architectural elements. Its warmth brings a sense of permanence and character to even the smallest details.

Satin Brass takes that traditional material and gives it a quieter expression. The brushed surface softens its golden tone, creating a finish that feels warm, sophisticated, and beautifully at home in both classic and contemporary spaces.

Unlacquered Brass

Time Leaves its Signature

Like historic European architecture, this finish isn't intended to remain exactly as it leaves the factory; it records the life lived around it. Unlacquered brass becomes more beautiful because it changes.

Working with ico

From first quote to finished install. We believe a premium bathroom fixture should look beautiful in all rooms, function flawlessly for years, and arrive exactly when your project needs it.

Better Because We Listen

ico doesn't treat a finished product as finished. Every item evolves through conversations with consultants who specify it, the designers, architects or builders who build around it, and the homeowners who live with it. The feedback loop is core to how ico operates, and it's why the quality holds up over time.

IPX4 Wet Rated

All ico fluid-filled hardwired towel warmers are IPX4 rated to the IEC60529 standard to protect against splashing water and can be installed in shower areas, including Zone 1 areas, when fitted with the specified wet-location hardwire kit and installed according to the product guide.

Obsessing Over Every Hidden Detail

True quality is found in the small touch points that other manufacturers overlook to ensure your installation goes smoothly and lasts a lifetime.

High grade metals - Built with heavy, solid brass and stainless steel that will never rust or degrade in humid environments.

Precision spec sheets - Clean, perfectly measured dimension sheets ensure your plumbing and electrical teams get it right the first time.

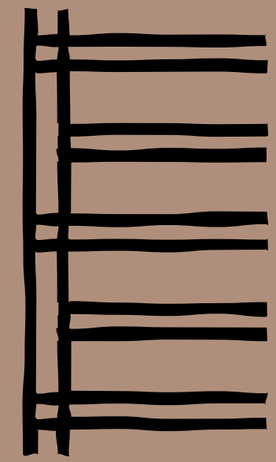
Independently Certified Safety

We don't ask you to take our word for it. Our collections are rigorously tested by independent labs to meet North America's strictest electrical and plumbing codes.

Electrical Peace of Mind

Both the CSA and ETL marks mean our electrical components operate safely in humid bathroom environments and pass building inspections with zero hassle.

Towel Warmers



What's included

All fluid-filled, hardwired towel warmers include a programmable Wi-Fi Smart Switch. The switch is also available as an optional add-on for dry-wire, hardwired models.

Warranty

All ico products are covered by a Limited Lifetime Warranty for residential installations, limited to the original homeowner/purchaser. Commercial installations are covered by a 2-year limited warranty.
The warranty covers defects in materials and workmanship under normal use. It does not cover normal wear and tear, damage caused by abrasive cleaning agents or materials, or the natural aging and patina development of unlacquered brass finishes.
During the warranty period, ico covers all applicable parts and labour for approved warranty claims. All warranty-related work (excluding installation) is completed in-house. ico does not cover field labour or installation costs.
Proof of purchase is required for all warranty claims.

Collections

Designed to be seen and felt, ico Towel Warmers add a distinctive touch to the bathroom and the everyday comfort of warm, dry towels.

Explore a range of styles and finishes, with electric hardwired, plug-in and hydronic options.

Hydronic Systems

Is a hydronic towel warmer right for me?

A hydronic towel warmer may be suited to your home if:

- You have a boiler system
- You are able to install the towel warmer(s) on a closed loop
- The loop incorporates an anti-rust inhibitor.
- The loop operates at approximately 160°F/70°C (+/- 10%)

What will I need to install my hydronic towel warmer?

You'll need 3 pieces for successful installation:

- Hydronic towel warmer: all product codes begin with H for hydronic models.
- A set of valves: either a floor set, or wall set depending on the location of your feed pipes.
- An installation pack: the standard 24" installation pack can be cut to size and works with all ico valves.

Wall Valve Set

	Code & Price		Code & Price
Gloss White	A1011 **$222**	Brushed Nickel	A1014 **$247**
Matte White	A1012 **$247**	Matte Black	A1015 **$260**
Chrome	A1013 **$236**	Polished Nickel	A1016 **$260**

Used with feed pipes coming from the wall.

Floor Valve Set

	Code & Price		Code & Price

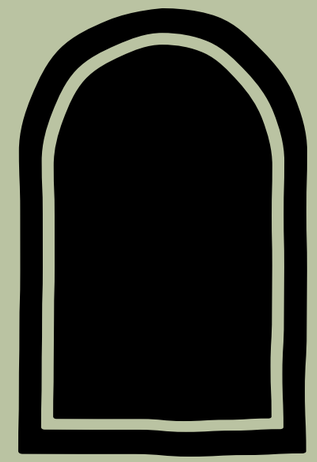
Wi-Fi Controller

Our Wi-Fi Smart Switch is the smart choice for a modern lifestyle.

- Matter certified
- Compatible with Apple Home, Samsung SmartThings, Google Home, and Amazon Alexa.
- Remote mobile access
- Turns towel warmer on and off using schedules, timers, and smart automations.
- Can also function as a manual ON/OFF switch.

Mirrors & Medicine Cabinets



Warranty

All ico products are covered by a Limited Lifetime Warranty for residential installations, limited to the original homeowner/purchaser. Commercial installations are covered by a 2-year limited warranty.

The warranty covers defects in materials and workmanship under normal use. It does not cover normal wear and tear, damage caused by abrasive cleaning agents or materials, or the natural aging and patina development of unlacquered brass finishes.

During the warranty period, ico covers all applicable parts and labour for approved warranty claims. All warranty-related work (excluding installation) is completed in-house. ico does not cover field labour or installation costs.

Proof of purchase is required for all warranty claims.

Collections

A mirror shapes both the look of a bathroom and the moments spent in it. Explore ico's LED and non-lit mirrors, medicine cabinets and makeup mirrors, with options for better lighting, useful storage and a closer view of your daily routine.

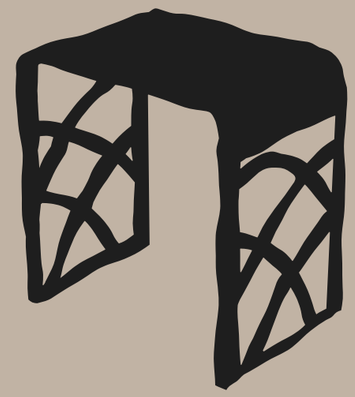
Bathroom Accessories



Warranty

All ico products are covered by a Limited Lifetime Warranty for residential installations, limited to the original homeowner/purchaser. Commercial installations are covered by a 2-year limited warranty.

The warranty covers defects in materials and workmanship under normal use. It does not cover normal wear and tear, damage caused by abrasive cleaning agents or materials, or the natural aging and patina development of unlacquered brass finishes.

During the warranty period, ico covers all applicable parts and labour for approved warranty claims. All warranty-related work (excluding installation) is completed in-house. ico does not cover field labour or installation costs.

Proof of purchase is required for all warranty claims.

Collections

The finishing details should feel like part of the design. ico Bathroom Accessories bring considered style to everyday essentials, with a wide range of designs and finishes that coordinate with many leading faucet brands.
