Hydronic Systems

Systèmes Hydroniques

Is a hydronic towel warmer right for me?

A hydronic towel warmer may be suited to your home if:

- You have a boiler system
- You are able to install the towel warmer(s) on a closed loop
- The loop incorporates an anti-rust inhibitor
- The loop operates at approximately 160°F/70°C (+/- 10%)

If all these conditions apply, then a hydronic Tuzio towel warmer will fit perfectly into your home!

Un chauffe-serviettes hydronique me convient-il?

Un chauffe-serviettes hydronique peut convenir à votre foyer si:

- Vous avez un système de chauffage à chaudière
- Vous êtes capable d'installer le chauffe-serviettes sur un circuit fermé
- Le circuit incorpore un inhibiteur de rouille
- Le circuit fonctionne à environ 160°F/70°C (+/- 10%)

Si toutes ces conditions s'appliquent, alors un chauffe-serviettes hydronique Tuzio s'adaptera parfaitement à votre foyer!

What will I need to install my hydronic towel warmer?

You'll need 3 pieces for successful installation:

- Hydronic towel warmer: all product codes begin with H for hydronic models
- A set of valves: either a floor set, or wall set depending on the location of your feed pipes
- An installation pack: the standard 24" installation pack can be cut to size and works with all ICO valves

Please note, if you've selected a Traditional Tuzio towel warmer (see pages 50-51), then you'll require a traditional gate valve.

De quoi aurai-je besoin pour installer mon chauffe-serviettes hydronique?

Vous aurez besoin de 3 pièces pour une installation réussie :

- Un chauffe-serviettes hydronique : tous les codes de produit commencent par H pour les modèles hydroniques
- Un jeu de robinets: soit un jeu pour plancher, soit un jeu pour mur selon l'emplacement de vos tuyaux d'alimentation
- Une trousse d'installation : la trousse d'installation standard de 24 po peut être coupée à la taille désirée et fonctionne avec toutes le robinets ICO

Veillez noter que si vous avez sélectionné un chauffe-serviettes Tuzio traditionnel (voir pages 50 à 51), vous aurez besoin d'un robinet-vanne traditionnel.

All Tuzio hardwired towel warmers include a 7-day programmable controller. Tous les chauffe-serviettes câblés Tuzio sont équipés d'un contrôleur programmable de sept jours. Please note, product specifications and dimensions are subject to change without notice. Veuillez noter que les spécifications et les dimensions des produits sont sujettes à changement sans préavis.

What is Kelvin Color Temperature?

Qu'est-ce que la température de couleur Kelvin?

The Kelvin (K) scale measures the color temperature of light sources, including LEDs. Color temperature refers to the perceived warmth or coolness of light emitted by a source, and it is measured in units of Kelvin (K). It can vary depending on personal preference, the intended use of the space, and the desired ambiance.

Compared to others with preset or fixed color options, ICO LED Mirrors stepless color adjustment (from 2700K - 6500K) provides users with greater control, flexibility, and versatility, allowing for a more personalized and adaptable lighting experience.

L'échelle Kelvin (K) mesure la température de couleur des sources lumineuses, y compris les LED. La température de couleur fait référence à la chaleur ou à la froideur perçue de la lumière émise par une source, et elle est mesurée en unités de Kelvin (K). Elle peut varier en fonction des préférences personnelles, de l'utilisation prévue de l'espace et de l'ambiance souhaitée.

Par rapport à d'autres miroirs dont les options de couleur sont prédéfinies ou fixes, le réglage progressif de la couleur (de 2700K à 6500K) offre aux utilisateurs un plus grand contrôle, une plus grande flexibilité et une plus grande polyvalence, ce qui permet une expérience d'éclairage plus personnalisée et plus adaptable.

Color Rendering Index (CRI) measures how natural colors render under an artificial white light source like LED's when compared with sunlight.

A CRI of 90+ on LED light source denotes very high color accuracy and better color differentiation, while an R9>50 means better skin tone rendering which are highly essential for makeup application or face grooming. It also provides better visual comfort as it closely mimics natural daylight, reducing eye strain and fatigue.

L'indice de rendu des couleurs (IRC) mesure le rendu des couleurs naturelles sous une source de lumière blanche artificielle, comme les LED, par rapport à la lumière du soleil.

Un IRC de 90+ sur la source lumineuse LED indique une très grande précision des couleurs et une meilleure différenciation des couleurs, tandis qu'un R9>50 signifie un meilleur rendu du teint de la peau, ce qui est essentiel pour l'application du maquillage ou le toilettage du visage. Elle offre également un meilleur confort visuel car elle reproduit fidèlement la lumière du jour, réduisant ainsi la fatigue oculaire.

Get to Know ICO Vanities

1. What are ICO vanities made of?

The carcass of the ICO vanity is made from a water-resistant pine particle board material with a modern, textured finish. The front of the vanities are made of either MDF or particle board depending on the design – both are a high quality and water-resistant finish. Colored finishes are lacquered, and wood grain finishes are laminate.

2. What are ICO sinks made of?

ICO vessel sinks are all made of cast marble, which consists of approximately 75% crushed dolomite rock, infused with resin and covered with a UV resistant gelcoat. This material allows us to achieve defined edges and straight lines in our designs, and a high chip/crack resistance.

3. How do ICO vanities ship?

ICO vanities ship free of charge in wooden protective packaging from our head office in Regina, SK. All products are in stock and ship next day, anywhere in North America. Upon shipping, a tracking number will be automatically emailed to you.

Faire connaissance avec les vanités ICO

1. En quoi sont faits les meubles-lavabos ICO?

La structure d'un meuble-lavabo ICO est faite d'un panneau de particules de pin résistant à l'eau, avec une finition moderne et texturée. La façade des meubles-lavabos est fabriquée en panneaux MDF ou en panneau de particules, selon le modèle, tous deux de haute qualité et résistants à l'eau. Les finitions colorées sont laquées, et les finitions grain de bois sont stratifiées.

2. De quoi sont faits les éviers ICO?

Les éviers ICO sont tous fabriqués en marbre moulé, qui consiste en environ 75% de roche dolomitique broyée, infusée dans de la résine et recouverte d'un revêtement en gel résistant aux rayons UV. Ce matériau nous permet d'obtenir des bords définis et des lignes droites dans nos conceptions, ainsi qu'une grande résistance aux éclats et aux fissures.

3. Comment sont expédiés les meubles-lavabos ICO?

Les vanités ICO sont expédiées gratuitement dans un emballage protecteur en bois depuis notre siège social à Regina, SK. Votre vanité sera remplacé sans poser de questions et expédié le jour ouvrable suivant.

6. Quelle est la quincaillerie utilisée sur les meubles de salle de bains ICO?

Les vanités ICO utilisent la quincaillerie Hettich de première qualité. Tous les systèmes de montage sont entièrement réglables dans toutes les directions afin de garantir que votre meuble-lavabo est monté de manière parfaitement droite, sécuritaire et de niveau. Toutes les glissières de tiroir et les charnières sont à fermeture en douceur.

7. Les tiroirs des meubles-lavabos ICO sont-ils découpés?

Le tiroir supérieur des meubles-lavabos ICO comprend une ouverture pour permettre la plomberie et une installation facile.
